

## Alarm opzoeken in MED SKY CONTROL CENTER

The screenshot shows the MED SKY CONTROL CENTER interface. At the top, there is a menu bar with options: File, Vehicles, Fleets, Modem, Users, Alarms, Report, Statistics, HeadQuarter, and ?. Below the menu bar, there is a 'Modem state' section with several icons, including a green arrow pointing upwards. A 'com1ASN [COM1]' window is visible on the left, showing 'Online' status. The 'Search alarms' dialog box is open in the center, displaying search criteria and a table of alarm results.

**Search alarms**  
Found 4.536 root alarm. (See details for alarms derivatives)
